„3-G criteria“

Please show a **certificate** to prove one of the below **listed criteria**:

- **Proof of vaccination** („Geimpft“)
- **Negative test result** („Getestet“)
- **Proove of full recovery** („Genesen“)

Those prooves have different **dates of validity**.

Please note that such certificates are only valid in connection with a personal ID card.

be safe:

„3-G criteria“ - vaccination

Certificate of the vaccination with a nationally / EU licensed vaccine (e.g. SPUTNIK is not licensed in EU):

- **3rd vaccination „booster“** less than 9 months ago
- **2nd vaccination** less than 6 months ago

Just to
be safe:

„3-G criteria“ – negative test result

The following test results are accepted:

- **SARS-CoV-2-Antigentest** at a **registered testing location** (test center, pharmacy store, doctor)
validity: 24 h
- **Molecularbiological test** (e.g. PCR)
validity: 48 h

Just to
be safe:

„3-G criteria“ – full recovery

As proof of recovery is accepted:

- **Medical confirmation** within the last 6 months after a recovery from **SARS-CoV-2-Infection**.

Please note that personal ID-card is needed to prove your identity.

Just to
be safe:

We help you to get tested!

In case no „3-G proof“ is available, please do a **test at a registered test center.**

There are numerous testing centers ins Vienna, where testing for free is available (PCR and/or Antigen).

Find a list of testing centers at our webpage (use the QR-Code and copy the link to your mobile phone):
