When entering Austria from abroad, a medical certificate or proof of a negative test in German or English language for SARS-CoV-2 must be available and presented to border authorities upon request. After entry, a quarantine of 10 days is required.  
On the 5th day of quarantine earliest – the day of arrival marks day 0 - a molecular biological or antigen test for SARS-CoV-2 can be conducted. If the result is negative, the quarantine can end early. The exemptions from quarantine according to § 4 (3), § 5 (5), § 6 (1), § 6 (2) and § 6a of the [COVID-19 entry regulation](#) apply. Further, the exceptions from this regulation stated in § 7 (1) and § 8 apply as well. If one exclusively stayed in countries listed in [appendix A](#) or in Austria for the last 10 days prior to the entry, there is no quarantine obligation.

### EXCEPTIONS

- The entry is subject to an exception stated in § 6a of the [COVID-19 entry regulation](#) (commuter traffic). ⓘ
- One or more of the exceptions mentioned in § 7(1) or § 8 of the [COVID-19 entry regulation](#) are applicable to my entry. ⓘ
- One or more of the exceptions mentioned in § 6(1) or § 6(2) of the [COVID-19 entry regulation](#) are applicable to my entry. ⓘ
- The entry is subject to an exception in § 4(3) or § 5(5) of the [COVID-19 entry regulation](#). ⓘ

- A quarantine is not necessary, due to exception “persons entering the country for work purposes” according to § 4 (3) and § 5 (5), if you have a negative medical test.
- Hence please choose the correct checkbox as shown above.
- To avoid quarantine in any case, we highly recommended to do the medical test at your country of origin and attach the certificate.
- At the end you will get a PDF, which you have to show at the Entry of Austria, together with our invitation letter.
