

Declaration of Consent to Electronic Data Transmission

Supplier: RTA, Rail Tec Arsenal Fahrzeugversuchsanlage GmbH, Paukerwerkstr. 3, A-1210 Vienna
(referred to as RTA)

Customer:
(referred to as CUSTOMER)

1. Object of Declaration

RTA is an independent and neutral research and testing centre operating two climatic wind tunnels for climatic tests on rail vehicles, road vehicles, aircraft and other technical equipment. RTA provides the opportunity to investigate the impact of weather on vehicles and components under realistic operating conditions. Any weather conditions in the world can be produced here at the touch of a button – from intense solar radiation to snow, rain and ice. The combination with wind, load and drive cycle simulations allows the implementation of realistic test scenarios.

RTA intends to provide data for CUSTOMER via electronic transmission. The aim is to reduce the necessary travel activities during Covid-19 related travel restrictions to a minimum. This is a possibility to observe the test activities and results at any place.

CUSTOMER gives its consent to the below described data transmission.

2. Data Transmission

Object of the declaration is the electronic data transmission in order to monitor and observe the performance of climatic tests from any given place provided an internet connection is available.

The following type of data will be provided:

- Live measurement data (via VNC Server, recommended Client available under <https://www.tightvnc.com/download.php>)
- Video signal during relevant climatic tests (via SSL encoded connection)
- Remote access to CUSTOMER owned device within RTA customer network.

CUSTOMER has to care for a compatible system able to receive the data.

The above-mentioned data transmission is no matter of purchased service contained in the purchase order but only a service free of charge without legal entitlement.

3. Usage

CUSTOMER is only allowed to use the data for live observation purposes during the relevant test procedures (e.g. functional tests) in the climatic wind tunnel.

Data recordings by CUSTOMER are not permitted. Any further dissemination or distribution of data is permitted only by specific advance arrangement with RTA.

Data and video recordings are made by RTA. According to purchase order RTA provides - as usual - the relevant data within the test report after completion of tests.

4. Security Measures & Authentication

RTA only transmits encoded data.

CUSTOMER is provided with temporary, personally identifiable access data. RTA reserves the right to decide about the number of access and users.

Access data will be sent to an e-mail adress, determined by CUSTOMER. (User and password separately). CUSTOMER is intended to keep the access data confidential. Access data must not be revealed or passed to third parties (others than the person identified as user).

CUSTOMER acknowledges that no data safety beyond the above-mentioned security measures exists. RTA assumes no liability for data leak of confidential data.

5. Liability

RTA guarantees no data continuity. In case of malfunction during live transmission RTA assumes no liability.

6. Duration

Begin and end of project specific data transmission is subject to individual arrangement.

This declaration can be withdrawn by writing at any time. In consequence, access authorizations are deleted.

7. Final Clauses

All disputes arising from the declaration (including disputes concerning its existence or non-existence) shall be subject to the exclusive jurisdiction of the competent courts at Vienna (Austria). The declaration is governed exclusively by the laws of the Republic of Austria to the exclusion of the UN Convention on Contracts for the International Sale of Goods
